Financialisation has an impact on all companies. Although some finance professions are outsourced, it is imperative that they remain in-house. Mastering management control and finance processes gives companies a competitive edge in terms of success.

The European Bachelor's Degree in Finance and Management Control prepares future professionals with an in-depth understanding of financial markets, as well as effective management of the financial aspects of the organisation, including financial planning, monitoring and analysis. Graduates will be eligible for positions with a financial component in any national or international company.

LEARNING OUTCOMES

- Master the fundamental principles of accounting
- Understand how financial markets work
- Analyse the company's financial situation
- Draw up financial projections
- Assess an investment project
- Find financing solutions
- Understand the banking analysis process
- Manage cash flow
- Optimise management of a customer portfolio
- Produce and analyse financial statements
- Knowledge of management control and financial audit procedures
