To meet the challenges of performance and development, companies need to mobilize their strengths and master their weaknesses in an environment full of opportunities and threats.

They must offer products and services that meet customer requirements (Quality), improve health and safety in the workplace (Safety), and protect the environment from the impact of their activities (Environment). **The European Bachelor's in Quality, Safety and Environment (QSE)** trains professionals to define, implement and improve QSE management systems, governed by ISO standards.

LEARNING OUTCOMES

- Know the reference standards (ISO 9001, ISO 45001, ISO 14001, etc.) and their principles
- Participate in the company's strategic analysis
- Contribute to company management
- Master QSE risk analysis methods
- Master the tools used in a management system
- Understand internal QSE audit methodology
- Lead a company to certification according to QSE standards
- Understand CSR, its challenges and opportunities
- Master the methodology for implementing a CSR approach
